### COUNTY HEALTH RANKINGS

**TABLE 1. COUNTY HEALTH RANKINGS BY CATEGORY FOR ALACHUA COUNTY, 2010-2016.**

	2010	2011	2012	2013	2014	2015	2016
HEALTH OUTCOMES	18	16	15	18	17	18	25
<i>Mortality/Length of Life</i>	16	7	10	16	16	12	13
<i>Morbidity/Quality of Life</i>	24	25	24	21	19	19	40
HEALTH FACTORS	8	6	5	4	2	2	10
<i>Health Behavior</i>	18	17	13	11	8	9	33
<i>Clinical Care</i>	1	1	1	1	1	1	1
<i>Social &amp; Economic Factors</i>	11	9	16	12	13	14	13
<i>Physical Environment</i>	49	23	31	28	21	18	12

PLEASE NOTE: DO NOT COMPARE 2016 RANKS FOR QUALITY OF LIFE AND HEALTH BEHAVIORS WITH PREVIOUS RANKS. In previous RWJ releases, the CDC provided BRFSS data with estimates based on seven years of combined data. This year, only 2014 data was used to construct estimates. Historically, BRFSS was based on landline telephones. In 2011, cell-only users were included for the first time. RWJ said that the data from 2011 onward could not be easily combined with earlier years to create the RWJ county estimates. CDC doesn't release data when there are fewer than 50 responses, so in about 90 percent of the counties, in order to get more than 50, they would combine seven years of survey responses. CDC only provided 2014 county-by-county data to RWJ this year, using a different modeling technique so they could include cell phone data.

# ALACHUA COUNTY CHILDREN'S TECHNICAL APPENDIX

## OFFICIAL 2010 CENSUS COUNTS

The Following tables are the official counts of the United States Census Bureau.

The United States Census Bureau collects data by United States Postal Service (USPS) zip codes. Based on zip code data the Census Bureau then aggregates Zip Code Tabulation Area (ZCTAs) from addresses contained within each block. This allows the aggregated data to be converted into areal feature datasets (ZCTAs). For complete information, please see <http://www.census.gov/geo/reference/zctas.html>.

### ZIP CODE TABULATION AREA (ZCTA) LEVEL DATA

#### Races

**TABLE 5. TOTAL POPULATION BY RACE, BY ZIP CODE TABULATION AREA (ZCTA), ALACHUA COUNTY AND FLORIDA, 2010.**

Area	Total Population	American Indian and Alaska Native Only		Asian Only	
		Number	Percent of ZCTA	Number	Percent of ZCTA

A family includes a householder and one or more other people living in the same household who are related to the householder by birth, marriage, or adoption. All people in a household who are related to the householder are regarded as members of his or her family. A family household may contain people not related to the householder, but those people are not included as part of the householders family in census tabulations. Thus, the number of family households is equal to the number of families, but family households may include more members than do families. A household can contain only one family for purposes of census tabulations. Not all households contain families since a household may be comprised of a group of unrelated people or of one person living alone.

A household includes all of the people who occupy a housing unit. (People not living in households are classified as living in group quarters.) A housing unit is a house, an apartment, a mobile home, a group of rooms, or a single room occupied (or if vacant, intended for occupancy) as separate living quarters. Separate living quarters are those in which the occupants live separately from any other people in the building and that have a direct access from the outside of the building or through a common hall. The occupants may be a single family, one person living alone, two or more families living together, or any other group of related or unrelated people who share living quarters.

Florida	19,361,792	59,121	0.3	490,833	2.5

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates for 2010-2014, the 2010 Census provides the official counts of the population and housing units for the nation, counties, cities, and towns. The American Community Survey is a sample of data taken over a time period and should not be compared to other sources of data.

Florida	4,650,162	3,364,135	330,379	955,648

A family includes a householder and one or more other people living in the same household who are related to the householder by birth, marriage, or adoption. All people in a household who are related to the householder are regarded as members of his or her family. A family household may contain people not related to the householder, but those people are not included as part of the householders family in census tabulations. Thus, the number of family households is equal to the number of families, but family households may include more members than do families. A household can contain only one family for purposes of census tabulations. Not all households contain families since a household may be comprised of a group of unrelated people or of one person living alone.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates for 2010-2014, the 2010 Census provides the official counts of the population and housing units for the nation, counties, cities, and towns. The American Community Survey is a sample of data taken over a time period and should not be compared to other sources of data.

A household includes all of the people who occupy a housing unit. (People not living in households are classified as living in group quarters.) A housing unit is a house, an apartment, a mobile home, a group of rooms, or a single room occupied (or if vacant, intended for occupancy) as separate living quarters. Separate living quarters are those in which the occupants live separately from any other people in the building and that have a direct access from the outside of the building or through a common hall. The occupants may be a single family, one person living alone, two or more families living together, or any other group of related or unrelated people who share living quarters.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates for 2010-2014, the 2010 Census provides the official counts of the population and housing units for the nation, counties, cities, and towns. The American Community Survey is a sample of data taken over a time period and should not be compared to other sources of data.

A family includes a householder and one or more other people living in the same household who are related to the householder by birth, marriage, or adoption. All people in a household who are related to the householder are regarded as members of his or her family. A family household may contain people not related to the householder, but those people are not included as part of the householders family in census tabulations. Thus, the number of family households is equal to the number of families, but family households may include more members than do families. A household can contain only one family for purposes of census tabulations. Not all households contain families since a household may be comprised of a group of unrelated people or of one person living alone. Although the American Community Survey (ACS) produces population, demographic and housing unit estimates for 2010-2014, the 2010 Census provides the official counts of the population and housing units for the nation, counties, cities, and towns. The American Community Survey is a sample of data taken over a time period and should not be compared to other sources of data.

A household includes all of the people who occupy a housing unit. (People not living in households are classified as living in group quarters.) A housing unit is a house, an apartment, a mobile home, a group of rooms, or a single room occupied (or if vacant, intended for occupancy) as separate living quarters. Separate living quarters are those in which the occupants live separately from any other people in the building and that have a direct access from the outside of the building or through a common hall. The occupants may be a single family, one person living alone, two or more families living together, or any other group of related or unrelated people who share living quarters.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates for 2010-2014, the 2010 Census provides the official counts of the population and housing units for the nation, counties, cities, and towns. The American Community Survey is a sample of data taken over a time period and should not be compared to other sources of data.

Florida	7,217,508	3,364,135	330,379	955,648	2,567,346

A household includes all of the people who occupy a housing unit. (People not living in households are classified as living in group quarters.) A housing unit is a house, an apartment, a mobile home, a group of rooms, or a single room occupied (or if vacant, intended for occupancy) as separate living quarters. Separate living quarters are those in which the occupants live separately from any other people in the building and that have a direct access from the outside of the building or through a common hall. The occupants may be a single family, one person living alone, two or more families living together, or any other group of related or unrelated people who share living quarters.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates for 2010-2014, the 2010 Census provides the official counts of the population and housing units for the nation, counties, cities, and towns. The American Community Survey is a sample of data taken over a time period and should not be compared to other sources of data.

Florida	4,650,162	814,181	17.5	174,030	3.7

\* A family includes a householder and one or more other people living in the same household who are related to the householder by birth, marriage, or adoption. All people in a household who are related to the householder are regarded as members of his or her family. A family household may contain people not related to the householder, but those people are not included as part of the householders family in census tabulations. Thus, the number of family households is equal to the number of families, but family households may include more members than do families. A household can contain only one family for purposes of census tabulations. Not all households contain families since a household may be comprised of a group of unrelated people or of one person living alone.

\* A family includes a householder and one or more other people living in the same household who are related to the householder by birth, marriage, or adoption. All people in a household who are related to the householder are regarded as members of his or her family. A family household may contain people not related to the householder, but those people are not included as part of the householders family in census tabulations. Thus, the number of family households is equal to the number of families, but family households may include more members than do families. A household can contain only one family for purposes of census tabulations. Not all households contain families since a household may be comprised of a group of unrelated people or of one person living alone.

\* A family includes a householder and one or more other people living in the same household who are related to the householder by birth, marriage, or adoption. All people in a household who are related to the householder are regarded as members of his or her family. A family household may contain people not related to the householder, but those people are not included as part of the householders family in census tabulations. Thus, the number of family households is equal to the number of families, but family households may include more members than do families. A household can contain only one family for purposes of census tabulations. Not all households contain families since a household may be comprised of a group of unrelated people or of one person living alone.

### Local Data on Children

Healthy Start provides support services to pregnant women, infants and children up to age three. The support services provided include information, referrals and ongoing care coordination, psychosocial, nutritional, and smoking cessation counseling, childbirth, breastfeeding and parenting support and education, and home visiting.

Peaceful Paths is a certified domestic abuse network that provides services to survivors of domestic violence in Alachua, Bradford, and Union counties. The services provided include emergency shelter, transitional housing, crisis hotline, victim advocacy, children's programming, education and training, counseling and support groups, community awareness and intervention, violence prevention programs, and batterer's intervention programming.

The Department of Children and Families provides a wide range of programs and services to assist individuals in becoming self-sufficient and live in stable families. Programs and services provided include but are not limited to ACCESS Florida, adult services, and child care.

Partnership for Strong Families (PSF) provides child welfare services in efforts to protect local children from abuse, neglect, and abandonment. PSF also assists in establishing safe and permanent homes with their own families, partner families, and adoptive parents. This is done through providing training programs, family and child counseling, and community resources (i.e., Library Partnership, SWAG Family Resource Center, Cone Park Library Resource Center, and Tri-County Community Resource Center).

Meridian Behavioral Healthcare is a private non-profit organization that promotes health, recovery, and well-being of individuals affected by mental illness and substance use disorders. Meridian provides prevention, coordinated treatment, and supportive services. Some of those services include mental health first aid, residential and inpatient services, child and youth services, outpatient services, and corporate and professional development.

The Early Learning Coalition of Alachua County is a school readiness program that uses an integrated service system linking decision makers, families, early childhood educators, and business leaders together to ensure that children from birth to five years old receive care and learning opportunities. Some of those opportunities include but are not limited to child care, early learning assistance, referrals, and Voluntary Pre-Kindergarten (VPK).

United Way of North Central Florida (UWNCFL) is a nonprofit corporation with a purpose to advance the common good by focusing on education, income, and health. Although, majority of their resources and efforts are geared towards education, UWNCFL leads the community to focus on education, income, and health through donations, advocating, and volunteering.

(1) This is the number of completed prenatal screens (whether Yes or No to consent) recorded for the reporting period according to the woman's county of residence.

(2) This is the number of complete prenatal screens processed where Healthy Start screening consent was "yes" according to the woman's county of residence.

(3) This is the number of women consenting to screen divided by the estimated number of pregnant women.

(4) this shows the number of complete prenatal screens where Healthy Start screening consent was "Yes" and computed score was 6 or more.

(5) This shows the number of completed prenatal screens where Healthy Start screening consent was "yes" and the computed score was less than 6 and the woman was invited to participate in Healthy Start by her provider.

(6) This is number 4 and number 5 added together.

(7) This is the number of complete prenatal screens where Healthy Start consent was "yes" to participate.

Total	151	30	114	5	2

If the license is active the program is approved to care for children, these are usually the non-public school(exempt) the public school (exempt) programs.and the religious exempt facilities. If they are not currently accepting children, programs can change to inactive status, putting the license on hold while not in operation. A provisional license is a temporary status to allow providers to come into full compliance and become active. They can care for children with a provisional license but eventually have to meet full compliance and change to active status. Regular/Annual programs are Child Care Facilities and Licensed Family Day Care Homes as well as the Large Family Child Care Homes. These facilities have to be inspected each year.

## ALACHUA COUNTY CHILDREN'S TECHNICAL APPENDIX

### CHARACTERISTICS ABOUT CHILD CARE CENTERS

**TABLE 183. SELECTED CHARACTERISTICS ABOUT CHILD CARE CENTERS AND THE EARLY LEARNING COALITION OF ALACHUA COUNTY, JUNE 2016.**

Childcare Centers With A Waiting List	The ELC of Alachua County does not currently have a waiting list for School Readiness.
	During last year there was a waiting list.
	It is hard to get the information about the waiting list being open to the families.
Hourly Wages for Experienced Childcare Workers at Childcare Centers	Teachers must meet eligibility requirements for the Tenure and Professional Development Incentive (TPDI) stipend.
	Teachers must hold a credential or degree in the field and must remain with the same center for at least a year.
	Stipend amounts vary according to level of education.
	Average hourly pay for teachers in TPDI is \$10.92.
	Hourly rates range from \$8.05 - \$12.92 per hour.
Education Requirements of Childcare Workers	State Requirements: teachers and assistants are required to complete 45 hours of DCF mandated training and pass a competency test.
	Due to New changes in the federal CCDGB program that funds subsidized care this is a requirement PRIOR to hiring rather than the current requirement to complete in a time frame of about one year from date of employment. The new CCDGB also requires a High School diploma.

## ALACHUA COUNTY CHILDREN'S TECHNICAL APPENDIX

**TABLE 194 CONT. ACTUAL PARENT SURVEY QUESTION AND RESPONSES, ALACHUA COUNTY PARENTS OF CHILDREN BETWEEN 0-5 YEARS OF AGE, 2016.**

Q16 - Please share your recommendations to improve services for families with young children/infants age five and under in Alachua County.							
We applied for headstart and preK and were denied at the last minute because we made a small amount of money over the guidelines. This delayed myself finding employment or continuing college by 2 years because i had to stay home with our child. We have qualittied for medicaid and food stamps but make too much to qualify for preschool? Now our kid is beginning kindergarten with no real social skills or academic skills. Unfortunate. The county could have a part-time preK school system that isn't income based to prepare children who's parents cannot afford proper child care or earn too much to qualify for the full time current offerings.							
parent education							
Better communication from the teachers and more notice of events.							
More dentist that take Medicaid.							
Get rid of political common core training in preschool and let kids be kids.							
Thank you for accepting my child							
Information regarding services not easily accessible							
No assistance for parents who work evenings. Had to pay hourly for babysitter, unaffordable and unsatisfied with care for my special needs child. No assistance was offered through ELC, no providers to match my schedule or needed accommodations for son							
There are too many low income families are cant afford child care and are denied child care resources. Then these children dont get the benefit of the education that lower mor higher income families recieve. no child should get left behind because their parent make a little more than another parent or not nearly as mucfh as a higher income house hold.							
More health care providers accepting medicaid							
There should be a provider for "sick" kids who cant attend their regular daycare when they arent actually sick, but merely have							
We need more peoples to help out with single parents							
Transportation services would be great.							
More info and availability							
Provide after school care, or expanded or specialized transportation options for children who are under 5 by Sep 1 especially for children with disabilities							
Ways to integrate daycare/preschool with child's therapy needs							
I really find the insurance policy to not allow another well-child visit until EXACTLY one year after the last visit. This makes it very hard for scheduling because most offices won't schedule a year out and if they do, often they don't have an opening immediately after. Normally, it is at least 2-3 weeks out so that sometimes, by age 5, you are making a well-visit about 6 months AFTER the child's birthday. Also, some people don't do VPK and most parents have no IDEA what is needed in preparation for Kindergarten.							
More activities							
More available programs							
More places displaying availability of services or more advertisement of a comprehensive website that has the information.							
we are the caretakers for a 5 year old. In the process of getting guardiansip papers. It is easier for us to take our son to and fro places than it is getting the service.							
Provide more infomation							
Open child learning pyschology programs to children under 12 years old! There is so much talk about early intervention for diabled children but no services!							
More quality daycare providers							
More systematic effort to reach out to parents about services							
I haven't used many of the current county services, so I can't make recommendations on how to improve them.							
Services need to be more affordable							
Better resources for after school care and daycare							
Better access to information via the website--better organization							
Lack of knowledge regarding resources and services. Need better communications							
Source: Alachua County Children's Parent/Guardian Survey, 2016.							
Prepared by WellFlorida Council, 2016.							

## ALACHUA COUNTY CHILDREN'S TECHNICAL APPENDIX

**TABLE 194 CONT. ACTUAL PARENT SURVEY QUESTION AND RESPONSES, ALACHUA COUNTY PARENTS OF CHILDREN BETWEEN 0-5 YEARS OF AGE, 2016.**

Q16 - Please share your recommendations to improve services for families with young children/infants age five and under in Alachua County.							
Having more free family events for fun/learning							
pre k should be free for everyone, not just the poorest of the poor. We we're turned down for head start because we weren't poor							
Simplify the VPK voucher to one internet location and same statewide form. Too confusing when googling and not finding correct county.							
Therapist "label" child as not requiring sessions in school when clearly they need the special speech therapy. Tgey suggest parents to take private sessions which parents cant afford.							
More options for After school low price							
therapy costs are atrocious, I know other students need the care, but will never receive services due to cost barriers and/or lack of transportation to get them there. Most parents assume the problems will be addressed once they start kindergarten and that is too late. More needs to be done to identify and service children with extra needs.							
Extend the hours for VPK							
More affordability							
Share information							
payment in advance makes it harder to find childcare and work simultaneously							
There is a lot out there, and plenty of help. The VPK program is such an asset in our state.							
I think Early Steps is wonderful in helping families with developmental delays.							
Do not have children you can not afford and if you all ready have them move north as there are many jobs							
free basic dental care (annual cleanings) for everyone							
i would like to add the topic "Bullying" my child was bullied alot , and i feel that it should be talk about it aleat once a week at							
need to make information especially for children with special needs more accessible to the public							
none							
The information about services should be more readily available for homemakers. I think information should be posted at places such as the library because not everyone has contact with the local schools through older children.							
Enact laws so that parents will not be fired/let go from work for not showing up to work because their kids are sick and cannot take them to daycare.							
Assistance with childcare placement and some kind of subsidies. My ex-husband and I both worked full time with decent salaries and still struggled so much to afford childcare that we ended up declaring bankruptcy and it had such a strain on us that our marriage ultimately suffered. Employers are also NOT AT ALL supportive of flexible schedules to allow parents to do what they need to do to get their children to and from childcare, be home with them when they are sick, etc.							
Make quality childcare more affordable for all families, and make more resources available for health care workers who are not on a typical m-f 9-5 work schedule.							
My biggest difficulty in seeking out services has been getting in contact with the offices required. It took me several months to line up insurance for my son because I could not reach anyone over the phone, would be cut off, would be put on hold indefinitely, or would not be contacted in return after leaving a message.							
provide free health care							
More staff and trained professionals to assist families							
Create a County-wide website base for Parenting Assistance/ Educational Services for parents; include local hospitals/ pediatricians/agencies for pre-natal/post-natal and parent education references, a listing of daycares in Alachua County, schools who offer VPK, Pediatric Health/Dental index, Post-pardum and general counseling services, as well as links for Family Aid/ Financial Assistance (like WIC, Florida Works, etc). *A CENTRAL/ ONE-STOP WEBSITE*							
I think one of the most important things to address is the Early Learning Coalition and there practices. They are very hard on the parents with getting information needed to qualify for services and even the older parents/guardians grandparents included are required to know and use this modern age technology or they will not get help with childcare or they loose the help they were getting. also, families that take in their relatives children if they have a little money or buying a home they cannot get benefits for the relative child. this make things very hard on everyone							
More arts and crafts for little ones, more play type activities indoors during the summer							
more advocates and educating parents about what is available							
everything is the best.							

Source: Alachua County Children's Parent/Guardian Survey, 2016.

Prepared by WellFlorida Council, 2016.

## ALACHUA COUNTY CHILDREN'S TECHNICAL APPENDIX

**TABLE 194 CONT. ACTUAL PARENT SURVEY QUESTION AND RESPONSES, ALACHUA COUNTY PARENTS OF CHILDREN BETWEEN 0-5 YEARS OF AGE, 2016.**

Q16 - Please share your recommendations to improve services for families with young children/infants age five and under in Alachua County.							
Offer a variety of parenting classes!!							
Centralized and accessible repository of services, information, and resources.							
Need more childcare for infants; longer hours. Large population of people in healthcare - shifts are 7-7 which prohibits the use of many daycares							
More available dentist providers and providers who work with parents whom miss appointments due to unforeseen							
More child care options.							
More standardized daycare and developmental centers would be great.							
The cost of trustworthy childcare is too much. I work at the hospital long hours and am very grateful for Baby Gator but the cost we pay is high - and when I found out that 25% of the budget is Admin and the actual teachers are very poorly paid - I was livid. Additionally I have numerous on-call days - with \$15/hour - my entire paycheck goes to childcare. I would not have made it without BabyGator being right at the hospital - it is a key service to females in the medical field - but they need some serious changes. Then when it came down to my oldest boy having behavioral problems - what is to be done? I am work 80-90+ hours a week, I don't know what services are available, all my money is already going to child care, etc. And in the beginning - oh boy! My baby had colic didn't sleep wouldn't nurse and I felt like there was nothing to be done - no one to help - no sleep - no out! With larger businesses like UF/Shands on-site care is so important but needs to be more affordable and they need to have a network of at-home providers, sick care providers, and counselors for moms to use							
More information provided at pediatric offices							
USDA dietary recommendations are too carbohydrate loaded. More lean proteins and vegetables would be better... Texas toast with cheese is not a nutritious breakfast.							
reduce costs for private health insurance							
Reduced costs for childcare at child development centers.							
have more high quality development centers available for this age group. there are very minimal openings and you often experience a 6mo+ waiting list for the child to get it, which is well after the mother should return to work post-maternity leave.							
service for looking for play dates							
More quality infant care options							
Costs of childcare keep going up for no apparent reason. I have never gotten a raise in my							
Lower childcare costs, availability of before school care and improve school hours (children should not get out so early on Wednesdays)							
Parenting education classes, more information on resources needed for more stages than just							
Doesn't affect me but a family member -- more ABA/BM availability for autistic children, better specialized education plans for autistic children in school system.							
Better pay for staff, less turn over, more educated staff, more affordable daycare with qualified staff							
While I was working full-time and my spouse was in school we qualified for WIC. I found it very difficult to have to take off so much time in addition to my regular prenatal care in order to go to my WIC appointments. Even with an appointment time, it took multiple hours, and most of that time was spent waiting. Since many employees don't have access to paid time off or paid maternity leave, it seems very unfair to require working parents who are already financially stressed to take so much time out of their work schedule to receive WIC benefits. WIC also seemed poorly organized--for instance a meeting with a lactation consultant was cut short since they had me wait to meet with the nutritionist first, so that the clinic was almost closed by the time they took me to see the lactation consultant. This problem could have been solved if they had asked if I was interested with meeting with a lactation consultant at the beginning of the appointment or even when I made the appointment, instead of once I actually got in to the nutritionists office. Finding good, affordable childcare is difficult especially for toddlers and infants. Very few providers are NAYEC certified, and almost all of them have long waiting lists. This makes it very difficult to plan in advance, or make adjustments during temporary job displacements (i.e. even if a parent is unemployed and looking for work, saving money by having them take care of child care isn't worth losing your spot at a good day care center or not being able to accept a good job offer because an opening at a day care center is not available). It can also be a barrier to some families to have to pay for applications fees at multiple daycares in the hopes of getting a spot within a time frame that won't disrupt their work or education schedule. Since spots are so limited, parents can end up spending several hundred dollars in non refundable application fees just to get a one or two viable options. There is also no centralized place to look at and compare the different child care options in the county.

Prepared by WellFlorida Council, 2016.

## ALACHUA COUNTY CHILDREN'S TECHNICAL APPENDIX

**TABLE 194 CONT. ACTUAL PARENT SURVEY QUESTION AND RESPONSES, ALACHUA COUNTY PARENTS OF CHILDREN BETWEEN 0-5 YEARS OF AGE, 2016.**

Q16 - Please share your recommendations to improve services for families with young children/infants age five and under in Alachua County.						
more outdoor play areas, more freetoddler activities						
More child care facilities need to open up spots for children younger than 5.						
more high quality child care options for children under 2						
improve standards for child care centers to make more high quality centers						
Increase income limits to some programs such as ELC's daycare assistance programs. there is a stigma about some programs that prevent some families from accessing services thinking they will be looked down upon by friends/community members for participating						
Answer phones better and quicker. (More staff perhaps?)						
There should be more center based childcare for children under five years old. With reasonable prices and locations						
Make getting appointments easier						
Do not need to improve						
More help for single moms						
N/A						
Lower cost for child care. Its almost like you work the first 3 days to put/pay for your child to be in daycare. Then the price drops when they hit 5 becasue they go to school so they are only at the daycare part time.						
Affordability is the most important, but overlooked issue. Child care tuition is almost equivalent to rent/mortgage.						
I would recommend more education provided to parents, especially first time parents. Many families work, and there are few facilities open during office hours. It would also benefit parents to have easier access to affordable childcare. I was denied assistance by ELC because I made slightly above the lower income bracket that qualifies for childcare assistance.						
I HAVE NONE						
continue to advocate for them and push more resources.						
Alachua county early learning coalition						
better staff and better hours						
None.						
Use social media to advise the public on the types of programs that are available. Unless you live in the poverty areas you do not hear of special programs.						
Availability of services outside the 9-5 schedule and facilities that offer child care for children that are sick and unable to go to school until illness passes.						
More Medicaid Dental providers who are QUALIFIED are needed in this area.						
education for new parents, access to services						
Summer programs that are free						
need education for parents						
ELC, I recommend their service it really helps						
help with the cost of daycare more						
it would be nice to have an information site						
Some families may work weekend jobs and may need childcare during those days						
I wish there were more dentists who accept Medicaid in Alachua						
Help the teachers help our kids by helping our kids learn more at home and school let our kids know learning new things everyday is fun but is food for our brains						
Nanny's loving arms just opened in town and they are outstanding with my child						
Better programs should be based on income, just public for everyone						
More child care for after hours						
SMALLER GROUP SETTINGS						
N/A						
None. Perfect.						
I love the help they are giving me a blessing						
Make information and access readily available						
Source: Alachua County Children's Parent/Guardian Survey, 2016.						
Prepared by WellFlorida Council, 2016.						

## ALACHUA COUNTY CHILDREN'S TECHNICAL APPENDIX

**TABLE 194 CONT. ACTUAL PARENT SURVEY QUESTION AND RESPONSES, ALACHUA COUNTY PARENTS OF CHILDREN BETWEEN 0-5 YEARS OF AGE, 2016.**

Q16 - Please share your recommendations to improve services for families with young children/infants age five and under in Alachua County.							
None							
Parents have to connect with the community							
Call an agency or speak with someone in the education programs							
So far, everything is great							
Cut down prices its hard for single parents							
Make it easier to get childcare							
Make it easier by having more available locations							
more funding readily available/ less wait time							
More sources posted in local stores, libraries, and on city bus stops							
MORE AVAILABLE DOCTORS							
Paid parental leave for parents, better social support of parents							
affordable care for all children for medical, dental, educational- expand healthy kids and school readiness- like head start							
N/A We go to O2B kids for preschool and although the cost is great so are the results							
Sharing information, make health care affordable							
Not letting income being a barrier to recieve free resources. Example being over income							
higher quality, affordable center care starting at infancy; universal home visiting							
Childcare costs can be extremely high. I currently pay (over the summer) \$1400 a month in childcare. I don't know how those making minimum wage or working part time can afford it.							
Larger scale awareness of resources							
More information during early prenatal appointments							
During pregnancy/parenting classes, at prenatal appointments, or at discharge after delivery, provide a list/database of resources that has information about reputable daycare, dentists, etc. Can just be a website that has the information on it. If this already exists, then publicizing that it exists.							
Availability of hours, and lower cost.							
Open a program for part-time mothers and fathers who do work or attned school for more than 20 hours a							
Childcare help while looking for employment							
I think the state should hire babysitters to take of kids at thier home and picking them up from							
N/A							
Honestly, I feel that family services have been improving fairly well in the four years I've been associated with them through							
There are a plethora of services out there, but knowing all of them is difficult. If it were not for the NFRMC mom lunch group and a couple of mom groups on social media, I would not have known about a lot of services.							
More advertisement of the resources available.							
Create a single clearing house for finding information and make that information available to mother's through the prenatal and medical delivery staff.							
There is a need for more providers since many Alachua county specialists also serve surrounding counties							
Make it easier to find out about available services (ads, fliers, follow-ups/check-ins from other							
More providers for other health services like dental and mental health							
reduce the cost of daycare							
Provide early childhood education for all regardless of income starting at 3 years old.							
less restrictions for child care assistance							
More affordable, QUALITY facilities for childcare (perhaps conneced with UF Early Education program?) that offer transportation, and food programs; more grants for start-up businesses; grocery stores in Food Desserts; free transporation services (not the bus) to doctors appt, etc.							

Source: Alachua County Children's Parent/Guardian Survey, 2016.

Prepared by WellFlorida Council, 2016.

## ALACHUA COUNTY CHILDREN'S TECHNICAL APPENDIX

**TABLE 194 CONT. ACTUAL PARENT SURVEY QUESTION AND RESPONSES, ALACHUA COUNTY PARENTS OF CHILDREN BETWEEN 0-5 YEARS OF AGE, 2016.**

Q16 - Please share your recommendations to improve services for families with young children/infants age five and under in Alachua County.						
daycare costs are outrageous in Alachua County. Making assistance available to more people would definitely help families who can not otherwise afford it.						
divorced parents, child custody issues, fathers don't receive adequate support, or non existant due to working two jobs to keep up with child support so child never sees father						
more outlets for information on childcare services						
Dental care						
More help from Early Learning Coal. with the cost of Daycare and more available spots.						
Information at hospital, prenatal provider, birth center regarding how to apply for medical						
It would help if UF Shands had a pediatric office located in Alachua.						
I feel fortunate to live here. I like that there is ample me outdoor playgrounds and great schools. Nothing comes to mind for ways to improve services.						
Dental credit that any child can use at any dentist, not just Medicare ones						
It is virtually impossible to get dental care for children on medicaid.						
Early learning coalition service center does not work with working parents schedules at all they are not flexible and it not a welcoming enviroment						
Expand pediatric dental medicaid options beyond Shands and the ACORN clinic.						
Better continuity of care; healthcare professionals communicating with one another in regards to the care of the child. Especially children with disorders, disabilities or any health concerns, they often are seen by a number of different specialists and it would be great if they communicated with one another better and provided a more comprehensive plan of care. Also, if healthcare professonals were more educated about trauma informed care and how to provide services to patients who have experience trauma, they would prove to be more effective.						
More resources in my community better transpotation to services more awareness of services and accomidations for younger children						
More affordable, quality care for working parents.						
STEM oriented activities for this age group are lacking. A children's museum or expanding activities at the Florida Museum for this age group would be great. Most city and state funded activities are for kids over the age of 5. I'd pay for something that was good quality but run by PK Yonge or other known name in the field of child education research and services. What childcare options exist aren't stimulating and exciting enough.						
Affordable daycare options are number one. I nearly spend my entire weekly check paying for childcare and I do not qualify for any subsidies.						
Find a way to make it easier for single parents who are working to get assistance with paying for childcare. It seems that you have to be not working or minimum wage to get any help. Nevermind that you are trying to better yourself and your family by holding down a job. Even though half your check goes to childcare every month, you make too much money to get assistance. Sucks to be you.						
More doctors of every type in the outlying areas, not everyone can make it to Gainesville. More programs geared towards homeschooling younger children.						
More financial assistance for child care/early education tuition. Alachua ELC has a waiting list for children needing these services. Also provide incentives for child care providers to open up in high poverty areas (meeting quality standards).						
More scheduled public events/activities for toddlers would be amazing!						
There needs to be a focus on providing qualitychild care for infants and toddlers. We were surprised at the lack of child care for pre-VPK children when we started searching for child care. Even though we began looking for child care in-earnest 6 months before our due date, we had a difficult time finding a location we were comfortable with that actually had availability.

## ALACHUA COUNTY CHILDREN'S TECHNICAL APPENDIX

**TABLE 194 CONT. ACTUAL PARENT SURVEY QUESTION AND RESPONSES, ALACHUA COUNTY PARENTS OF CHILDREN BETWEEN 0-5 YEARS OF AGE, 2016.**

Q17 - What can be done to make every child in Alachua County better prepared to start kindergarten?		
What can be done to make every child in Alachua County better prepared to s...		
Perhaps offerings college students work-study credits towards preschool programs for county residents. More volunteer programs at county libraries possibly coordinating with community service hour participants with white collar paper crimes, as in, non violent or substance based charges.		
reach the young parents, teen moms, reading in every home		
Continue to keep parents educated on current conditions and requirements.		
The problem is the expectation in Kindergarten not the lack of information or services. If these poor 5 year olds could just learn the basics with out the pressure ofCOMMON CORE Politically run schooling....Maybe kids would be ready.To many standards for kids at 4 or 5. Stop the Stigma of when a kid should be ready or not. Kids learn at different paces.		
Transportation		
vpk is great		
No child should be left behind. The income scale truly needs to be recalculated		
The school websites and alachua county schools web sites are terrible. It is very difficult to find necessary information. The sites are hard to navigate and they are not updated frequently. I couldnt find any information about the date and time for Kindergarten round up until the last minute. My oldest is going into Kindergarten. I didnt even know there was a kindergarten round up until I over heard another mother talking about it. It was never listed on the calendars on the school web site or the county school district site. Currently I have been trying to find the dates and times of meet the teacher. It is not listed on either calendar either. People are interested in more than just school holidays. I wish the calendars had more information on them.		
Provide pre -k for every child		
low cost childcare prior to VPK		
Early childhood programs with an academic focus rather than just "daycare"		
Support groups around alachua		
It's already being done.		
Full day VPK		
Pre-K and HeadStart services that are solely based on income and/or disabilities		
For children with disabilities who cannot be in large group settings VPK and Headstart programs are not an option, and other specialized (disabilities) programs end in the middle of the work day. Please provide options for after care or half day options for children under 5 so families don't have to choose between the specialized care their child needs, and having an option for all daychild care.		
As a parent Help your child over the summer/ school year with learning new things. Never stop teaching your child.		
increase awareness of special needs evaluation services/process		
Some form of NON-INTERNET related method for communicating minimum requirements for kindergarten. VPK was helpful but I don't know if everyone gets into it.		
Mandatory Vpk		
Lessen the kindergarten standards and allow more play and arts		
The subsidized preschool offered makes entrance to preschool easy.		
Maybe home packets the children can work on for children who do not attend pre k and a supplement packet for children attending pre k, with lessons pertaining to kindergarten readiness. Maybe a free kids meal incentive or something to excite the children to want to complete the packet and encourage learning and parent involvement.		

Source: Alachua County Children's Parent/Guardian Survey, 2016.

Prepared by WellFlorida Council, 2016.

## ALACHUA COUNTY CHILDREN'S TECHNICAL APPENDIX

**TABLE 194 CONT. ACTUAL PARENT SURVEY QUESTION AND RESPONSES, ALACHUA COUNTY PARENTS OF CHILDREN BETWEEN 0-5 YEARS OF AGE, 2016.**

Q17 - What can be done to make every child in Alachua County better prepared to start kindergarten?		
make childcare for children under 5 more affordable and assesible to all. Just because the parents work does not mean it is easy on the pocketbook for them to put their child in daycare		
Daycare is very expensive. Even with help from the early learning colotion, daycare can still be very expensive and it is hard to work when all your working for is to pay for daycare.		
N/A		
More early intervention services!		
Highly encourage all families to enroll their kids into VPK. It's free!		
Provide clear information on what is neccessary for child to learn before starting kindergarten and what is voluntary since they will be taught in kindergarten		
Full day VPK programs		
Lower costs for preeschool		
More money to extend vpk hours and to start at age 2 or 3		
More opportunites for children to visit the school before starting		
More subsidized programs available for low-income families.		
Provide paid parental leave. Put more resources into eliminating poverty. Put more resources into early childhood education, especially for children from disadvantaged backgrounds.		
Lower the cost of services to parent and make sure they respect the development age of children. Do not make them master skills that are not appropriate for their age yet.		
Make sure they have access to childcare/ learning/ social environments		
Let us know how you assess reading level so that we can prepare them. Need better communications from the school district.		
Have an open house for the kindergarteners to meet their teacher before the first day of pre k should be free for everyone, not just the poorest of the poor. We we're turned down for head start because we weren't poor enough.		
Parents need to work with their kids and not solely rely on child care		
Mandatory and more affordable pre-k		
Offer more than one year of VPK		
Start free pre schools at 3 years		
More Programs low price or free in summer		
Classes for parents on understanding what they should be working on for their children to make them best prepared to enter school, how to do it, and with access to resources		
I believe that vpk should be a regular school hour. Right now to be able to have my son participate all day in school i would have to pay 40 dollars a week		
Offer full day for VPK		
Knowledge of expected skills		
Vpk		
see above		
The VPK program is wonderful and just right to help every 4 year old get a good start. It would be great if it could be expanded to include more schools. There are a lot of schools I would not take my child to that offered VPK, bad teachers, bad facilities, etc. Then there are a lot of nice preschools that do not offer VPK, it'd be great to encourage the nicer schools to also offer VPK.		

Source: Alachua County Children's Parent/Guardian Survey, 2016.

Prepared by WellFlorida Council, 2016.

## ALACHUA COUNTY CHILDREN'S TECHNICAL APPENDIX

**TABLE 194 CONT. ACTUAL PARENT SURVEY QUESTION AND RESPONSES, ALACHUA COUNTY PARENTS OF CHILDREN BETWEEN 0-5 YEARS OF AGE, 2016.**

Q17 - What can be done to make every child in Alachua County better prepared to start kindergarten?	
More schools should offer VPK	
Build more parks on the south east side of town with educational areas	
more resources available. especially on what is needed to be known for the child before they reach that age	
None	
I think more information should be available for the Head Start programs.	
Encourage contraception so less unwanted kids -I know a lot of parents who became parents because they got pregnant and they are not good parents	
Make childcare more resonable.	
Make Kindergarten normal school hours. 8 to 3 p.m. or maybe even later. Having children to school at 7:45 a.m. is bound to cause sleepy children in class.	
Encourage exploration and play in preschool and at home, parents read to children, children have appropriate responsibilities at home,	
More early childcare options available for families so they can go to work and their children can enter preschools earlier and start learning; mandatory home health visits for all new parents for the first 5 years regardless of SES; better nutrition available and more/ better access to feeding counseling.	
Availability of quality care that is not religion based. Most of the providers that have availability and are affordable are based in churches, and we are not a religious family. It is important to us that our children get high quality early education, but there are extensive waiting lists or hours incompatible with our work schedules for most non-religious providers in Gainesville	
stop having a certain income restriction. All children should be able to participate	
Attendance of VPK	
spend quality time with your child, you are their first teacher	
educate parents or enable with the resources and tools	
More early education options. Prek at every school	
Make VPK free and available to all kids in the County, make it a requirement, and also provide it during normal work hours (8-5) so that parents can work!	
fund the daycare centers so they can provide care for needed families and get rid of the middle agency Early Learning coalition who is making things hard for the daycare centers to provide care for the children they make the providers take their attention off the children and more on their harrassing restrictions taking over the job of the DCF inspectors	
More educational arets and crafts, play activities so they are familiar with ther 123 and ABCs	
Reading	
More free programs, or very low cost	
language training and life habit training	
Build an indoor children's museum where children can play and learn. Offer parents incentives for taking parenting classes.	
Make daycare / preschools / vpk programs more affordable!	
Multiple years of Pre-k for everyone	
Doing a great job thus far in this area	
Parents should read to their children daily.	

Source: Alachua County Children's Parent/Guardian Survey, 2016.

Prepared by WellFlorida Council, 2016.

## ALACHUA COUNTY CHILDREN'S TECHNICAL APPENDIX

**TABLE 194 CONT. ACTUAL PARENT SURVEY QUESTION AND RESPONSES, ALACHUA COUNTY PARENTS OF CHILDREN BETWEEN 0-5 YEARS OF AGE, 2016.**

Q17 - What can be done to make every child in Alachua County better prepared to start kindergarten?		
Information about public and private schools.		
Some basic preschool for at least one school year		
Provide more high-quality, non-religious preschools and daycares in the county.		
Access to affordable child care centers/early education.		
Parents taking care of their kids.		
I think VPK is great and appears to have worked quite well for the 'educational' component for my two boys; however, the behavioral component is lacking - their VPK classes are 12-15 kids with two teachers who do not have time to correct individual problems - there needs to be a system to coordinate VPK education with behavioral counselors		
accessible VPK		
Education programs in day care. Food offered.		
Flu Vaccines		
Play-based early education available to children under 5.		
not sure. baby gator seems to be on the right track for this.		
The most qualified daycare teachers and up to date curricula. Programs to help new low income parents with emotional training		
Reduce childcare costs, pay for wrap around pre-k		
Resources that span from infant to five years old that parents are aware of. As opposed to just all the ones you hear about during pregnancy and at birth.		
focus more on reading, writing and team building activities for child interaction		
Have an executive team of educated (college degree holding), experienced childcare providers, perhaps paid by the local government and also supported through UF, who have developed curriculum and care standards based on child development (such as those who have worked at Baby Gator) spend time at all daycare facilities throughout Gainesville to help implement research-based standards of care and curriculum for children of each age group. Perhaps provide incentives to daycares who agree to be involved.		
Have more resources available to parents especially low income families		
see above		
expand available ELC services, increase enrollment for Early Head Start programs		
Free summer academic programs between VPK and K		
More programs like VPK in a variety of locations to support the parents working hours		
Making registration easier		
Offer more VPK and Pre-K classes		
Learn as they go for care		
not sure because i'm new to this		
More kids in Pre K		
Offer pre-kindergarten services to all children regardless of parents socio-economic status AND establish pre-kindergarten classes at all elementary schools		
N/A		
Hold parents accountable for working with their children at home		
I think an early curriculum in place will prepare students for the structure that is found in a K5 classroom.		
NO SUGGESTIONS		
educating them and supporting families		
Preschool

## ALACHUA COUNTY CHILDREN'S TECHNICAL APPENDIX

**TABLE 194 CONT. ACTUAL PARENT SURVEY QUESTION AND RESPONSES, ALACHUA COUNTY PARENTS OF CHILDREN BETWEEN 0-5 YEARS OF AGE, 2016.**

Q17 - What can be done to make every child in Alachua County better prepared to start kindergarten?		
Allowing all to qualify for VPK for free was one of the best things!		
Make all VPK programs have the same curriculum that way all children enter kindergarten knowing the same things.		
Include social, emotional, psychological development in the curriculum.		
It starts with early childhood development, and working with parents to educate at birth is needed.		
access to services and education that are affordable to all		
Free VPK Learning		
Just have a teaching class to be ready		
help them at home		
i think child care services help with if you pick the right daycare for your child		
Parents should work one on one with their children at home before starting Kindergarten		
VPK		
parents involved more with hand on learning with kids		
Be patient with children. Find a daycare that has time to be kind to your child's individual learning potential.		
Better programs for all income levels		
Read to your children everyday before bed or when they need to read		
I work with my kids at home. Any little time you have put in them		
MAKE SURE THAT CHILD CAN COUNT TO ONE HUNDRED AND WRITE THEIR NAME BECAUSE SOME PARENT WON'T TAKE OUT THE TIME TO DO SO		
SPEND MORE TIME WITH THE CHILD		
daycares make sure they prepare them for the next level		
More intense teaching practices		
ATTEND VPK EDUCATION		
learning to read		
Early education programs		
Nothing		
Head Start is always the first and best start		
Orientation, information and skills at home		
Introduce the kindergarten work in Head Start		
Spending more time working with them		
Better awareness		
Participation in Head Start / Early Learning programs are essential for kindergarten		
Maybe more programs like Head Start and available funding for school supplies		
DVD to take home and little activities		
Better preparation in learning skills		
All kids should be able to attend Pre-K as a mandatory requirement to prepare for K		
More childcare even for low income parents		
MORE EDUCATIONAL AND SOCIAL INTERACTION PROGRAMS		
Improve the lives of their parents.		

Source: Alachua County Children's Parent/Guardian Survey, 2016.

Prepared by WellFlorida Council, 2016.

## ALACHUA COUNTY CHILDREN'S TECHNICAL APPENDIX

**TABLE 194 CONT. ACTUAL PARENT SURVEY QUESTION AND RESPONSES, ALACHUA COUNTY PARENTS OF CHILDREN BETWEEN 0-5 YEARS OF AGE, 2016.**

Q17 - What can be done to make every child in Alachua County better prepared to start kindergarten?		
expand healthy kids and school readiness- like head start and vpk.		
Read 20 minutes per day to your child. Take an active role in their lives and learning as a parent. Continue providing/Increase provisions for Early Head Start and VPK		
Provide more books, educate parents on importance of reading and being in the moment.		
Every child enrolled in a preschool program by 4		
Make programs available to all families regardless of income status.		
higher quality, affordable center care starting at infancy		
It will take several things for every child to be school ready: QUALITY childcare -- many centers do not have highly skilled staff; financial assistance to cover childcare - I could be wrong but I believe many "well reputable" centers do not accept/participate with ELC; training for parents to continue the learning process at home.		
VPK in more locations		
help families find jobs, access to subsidy for quality child care		
I think access is there. I think resources are there. I think the major lack is in some parents desire to make the effort.		
Have more learning/educational opportunities that working parents can participate in with their children. Ideally evenings after 5 or weekends.		
Longer VPK days; offer more free or less expensive educational resources and/or programs to areas where many families face transportation issues.		
Practice at home. Free workshops. Free Learning with online teaching games		
Study		
Research. Research. Research.		
Providing parents with the information of what is available to them to help their children be ready.		
Encourage more early literacy programs and more parental education classes that are available free of charge. Parents should be highly encouraged to attend.		
More reasonable priced daycares		
Provide more info about VPK (from pediatrician, other services, ads, fliers, etc)		
Mandatory VPK/preschool		
teachers in preschools		
provide early childhood education starting at age 3 regardless of income or social status or location.		
More affordable, QUALITY facilities for childcare (perhaps conneced with UF Early Education program?) that offer FREE transportation for families		
FREE VPK, in schools that are actually of good quality. All the price reduced options are sevrly lacking and often times have long waitlists.		
Pre-K is an important part of kindergarten readiness, however if you don't qualify for the VPK program can be very costly. Making it available in ALL of the public school systems for free would be beneficial to the children and families who can not afford it.		
offer year round school starting at age 3		
better vpk program. vpk is lacking compared to the expensive private education programs.		
more information VPK		
Make VPK mandatory

Prepared by WellFlorida Council, 2016.

## ALACHUA COUNTY CHILDREN'S TECHNICAL APPENDIX

**TABLE 194 CONT. ACTUAL PARENT SURVEY QUESTION AND RESPONSES, ALACHUA COUNTY PARENTS OF CHILDREN BETWEEN 0-5 YEARS OF AGE, 2016.**

Q17 - What can be done to make every child in Alachua County better prepared to start kindergarten?		
Schools need more supplies for the VPK program to teach the children to be prepared for Kindergarten		
More reading based incentives/activities for families with small children, such as "1000 books to read before kindergarten"; more educational events and quality cultural programming for families with preschool aged children		
Healthy Families should be better advertised - it's wonderful for my baby's development and my parenting. I believe it helps prepare children for school.		
Good quality preschools!		
Involved, educated parents and teachers, good schools		
Providing them with quality healthcare, dental care and early learning education. Also, the child's homelife has a great deal to do with the success of the child in school, providing support to the families and making sure that their basic needs are met.		
More early learning services in my community transportation services		
Promote VPK more.		
Requiring all daycares to provide VPK. I've seen one my children start kindergarten without it and one start with it. It made huge, noticeable difference.		
Offer more in home programs to help parents who are interested help prepare their children for school. More information on how to homeschool your children.		
See above.

## ALACHUA COUNTY CHILDREN'S TECHNICAL APPENDIX

**TABLE 195 CONT. ACTUAL PROVIDER SURVEY QUESTION AND RESPONSES, ALACHUA COUNTY PROVIDERS OF SERVICES FOR CHILDREN BETWEEN 0-5 YEARS OF AGE, 2016.**

Q12 - Given your professional experience with families with children/infants age 5 or younger, what are the 3 major reasons that some children in Alachua County are not prepared to start school?

Given your professional experience with families with children/infants age...

Many children are not prepared due to:

1. Behavioral/ emotional problems
2. Lack of exposure to an enriched environment or preschool
3. Parenting difficulties that contribute to both of the above problems

1. The school's expectations for entering kindergarten are developmentally inappropriate.
2. Culturally, there is little understanding, awareness, and emphasis on purposeful parenting and family development.
3. Schools do not understand the importance of movement in learning.

1. Parental lack of education, knowledge and resources
2. Lack of exposure to travel, arts, culture etc.
3. All of the implications of the trauma of poverty

lack of parental concern/interest, costs, and transportation

Cost of adequate pre-school education or inability to attend because of transportation issues.

They come from poorly educated, low socioeconomic families that do not know how to prepare their children, don't necessarily value education of young children because they don't understand importance of early education, and don't have the money to enroll in programs.

Families lack of resources, parents don't have the funds to buy necessary school materials/proper clothing.

Homeless families are in survival mode, and are not thinking about school preparation for young kids.

Parents don't have the money to get them to and from services reliably, parents lack of education themselves.

- 1) they come from families with limited income
- 2) they come from families where parents have substance abuse issue
- 3) families may not be aware of all services offered to low income families

Chronic poverty--parents sometimes working more than one job

I don't know.

Did not have access to quality early learning in their home or in a program, mental health issues, behavior problems

Lack of pre-school, lack of early enrichment in the home including being spoken to regularly and being read to, not having good access to high quality pre-schools.

parental involvement at home, school readiness/not prepared.

Lack of knowledge of service, personal biases based on past experiences, personal motivation

1. Not enough money to place children in daycare to socialize and prepare for Kindergarten
2. Transportation complications getting children to daycare/VPK
3. Parents are uneducated and are not educating children at home/ not enough knowledge about services they may qualify for

Poor medical health, poor dental health, lack of proper parenting

transportation to and fro school, location of schools, costs of school

Parents are unprepared Children need special services Getting documents together

Lack of family resources Parent substance abuse Parent instability

Focus is too much on service and not enough on building the parenting - child relationship and the environmental needs to support and sustain this

Lack of resources Lack of transportation Caring for other children in the home

Source: Alachua County Children's Provider Survey, 2016.

Prepared by WellFlorida Council, 2016.

## ALACHUA COUNTY CHILDREN'S TECHNICAL APPENDIX

**TABLE 195 CONT. ACTUAL PROVIDER SURVEY QUESTION AND RESPONSES, ALACHUA COUNTY PROVIDERS OF SERVICES FOR CHILDREN BETWEEN 0-5 YEARS OF AGE, 2016.**

Some parents don't have transportation to take the child to daycare so that the child can start learning, lack of resources and some parents just wait until the child is five to start them in school and don't put them in daycare.				
1. Not every parent understands that education begins at birth. They believe that education begins in Kindergarten. These parents do not make the education of their child age 0 to 5 a priority.				
2. Not every child attends a high-quality preschool environment. Social education is just as important as cognitive development. A high quality, group setting provides both.				
3. Even if parents understand the importance of early childhood education, they simply can not afford a high quality program.				
social skills prepared for the length of the day Lack of parental knowledge of what is expected				
Lack of parental involvement in teaching emotional regulation				
Lack of exposure to language				
Difficulties interacting with others				
Lack of knowledge by the parent of the services and how to go about getting them into daycare or pre k. Lack of transportation and they need assistance with getting signed up.				
Do not go to preschool. Family doesn't encourage learning Coming from inadequate preschools				
ELC - make an appt. the family needs something corrected - they don't assist with a call and rec'ing fax - tell them can't do it now - have to come back.				
No empathy.				
Lack of parental education or parental inability to teach				
Lack of VPK type exposure. special needs not identified. lack of socialization skills.				
A				
Insufficient dedication to child's learning on behalf of the parent(s)				
Unidentified Developmental Delays				
Child Abuse, Poverty, and/or Neglect				
Limited access to quality childcare				
Educational level of parents				
Lack of comprehensive developmental screening/and or lack of referral or follow up in regards to positive screens at Pediatrician offices				
Children from low income families typically do not have enriching, language-intensive home experiences. Many of them are also not able to take advantage of early learning experiences in a high quality preschool.				
Not sure				
Not accessing available resources such as the VPK program. Allowing children to spend too much time on computers rather than interacting with other children/adults.				
they do not have access to a quality daycare with routines, education, nutrition and proper role modeling of what school will be like in the future				
Some parents need to put their children in daycares that do not offer VPK. In my professional experience, VPK is an excellent program and does work in getting children ready to start school, but most daycare (especially affordable ones) do not offer VPK services.				
Inability to afford pre-school				
Lack of transportation to pre-school				
Lack of knowledge of available pre-school opportunities				
not able to enter head start/ VPK limited resources for young children Lack of access to health and dental care.				
Lack of family commitment to educational exposure prior to formal schooling				
Lack of continuing education needs at home, families do not have access to essential learning materials, or families do not have finances for child care that would prepare their child for school.

## ALACHUA COUNTY CHILDREN'S TECHNICAL APPENDIX

**TABLE 195 CONT. ACTUAL PROVIDER SURVEY QUESTION AND RESPONSES, ALACHUA COUNTY PROVIDERS OF SERVICES FOR CHILDREN BETWEEN 0-5 YEARS OF AGE, 2016.**

Lack of preschool knowledge					
Lack of resources					
Lack of time to help children prepare due to work and other adult activity.					
Lack of parent motivation to engage their children in these services, as well as cultural norms. It seems like children are starting school later in age.					
Parents aren't educated on how to foster a healthy home environment, the children aren't taught that school is important and the children are living in poverty and have more pressing concerns than school.					
Children aren't enrolled in VPK or child care services due to parents not understanding the benefits of enrolling children in these programs.					
Parents indicate that transporting their children to these services is difficult and therefore they don't engage.					
For children younger than 4 out of pocket expenses sometimes prevent parents from enrolling their children into a child care facility which would set the foundation of education for their children.					
Unsure					
Access to preschool, lack of parental support, lack of parental education					
attendance Lack of social skills Parent knowledge and involvement in training opportunities					
Parents do not understand the value of the birth to 5 education. With parent involvement at these ages drastically reduced from previous generations we see children who come into the public school system ill prepared to handle rigorous workloads, poor attention spans, and most importantly lacking the respect for their peers and elders.					
Tooth pain resulting from dental caries because of inadequate home care (toothbrushing with a fluoridated toothpaste and poor diet).					
1- did not attend preschool 2- did not attend a quality preschool 3- school and parents did not work together					
Lack of parent knowledge; cost of services; trauma					
They are not "ready" for Kindergarten because they didn't have the socialization experiences or they didn't have any preschool experience.					
Poverty- poor home environment and inconsistent care settings. Lack of exposure to rich language and language enhancing activities. Low exposure to diverse experiences. Poor sense of safety resulting in poor behavior in care settings.					
unknown					
Lack of early intervention and access to resources and affordable, quality child care					
Mom and Dad have to be invested in their children's growth and learning. many parents are sadly not involved or do not care.					
1. Lack of affordable QUALITY child care facility options.					
2. Lack of parental awareness about the importance of preschool and early learning					
3. Financial strain					
Lack of interest by the parents.					
Lack of knowledge about what is available.					
Parents not eligible for assistance with childcare resulting in lower priced unlicensed or license low quality childcare services with without a robust educational curriculum.					
lack of parenting skills and illiteracy

## ALACHUA COUNTY CHILDREN'S TECHNICAL APPENDIX

**TABLE 195 CONT. ACTUAL PROVIDER SURVEY QUESTION AND RESPONSES, ALACHUA COUNTY PROVIDERS OF SERVICES FOR CHILDREN BETWEEN 0-5 YEARS OF AGE, 2016.**

Q13 - Given your professional experience with families with children/infants age 5 or younger, what should be done to address the issues you identified in Question 9 so Alachua County children will be better prepared to start school?

Given your professional experience with families with children/infants age...

It would be helpful for parents to receive better information at the pediatricians (and supplemented through videos that can be incentivized to watch) regarding providing an enriched environment.

Parents should be educated regarding programs that can assist with behavioral, social, and emotional development. I specialize in a treatment called Parent-Child Interaction Therapy (PCIT), which is an empirically supported treatment that has demonstrated effect sizes (calculated by Cohen's d) to double or triple the effect sizes of Ritalin even when the treatment only takes 15 to 20 sessions. PCIT assists with social skills, emotion regulation, cooperation, language development, and parenting stress levels. I am always torn when I hear so many families say "I wish I had know about this sooner." While PCIT International is working to promote knowledge regarding this 40-year old, well-researched treatment, it would be wonderful if the School System and early identification teams could help connect families to this service.

1. Focus schools on developmental readiness which precedes and enhances academic readiness.

1. greater resources and emphasis on Parent Engagement

1 year pre-K curriculum available across the county

Low cost opportunities.

We have to teach the importance of early childhood education to teens prior to child-bearing so that all children are educated about the importance. As a society we need to put money into the first 5 years instead of investing at children when they hit school age. At that time we have already missed the opportunity for many of these young children.

We do address all of those issues I guess it is more of educating families that the resources are available to the them and their school aged children.

The ELC system is difficult to use, and they make families jump through a lot of hoops. But it is a critical service that should be expanded to allow children up to age 14 to get curriculum-based instruction that will benefit their school preparedness.

Offer GED or remedial classes for parents also. Help with transportation.

Education about avail resources should be mandatory prior to receiving other social services such as WIC, food stamps

Community needs ample mental health facilities which would be easily accessible to get help with mental illness & substance abuse in a non-punishing type of environment.

Families on welfare should be required to take job training to help them get off the system.

The welfare system needs to be overhauled. people working low paying jobs should not be penalized for attempting to work. Who in his/her right mind wants to work a lower paying job just to have their welfare services taking away. The welfare sys is broken.

More state sponsored child care slots

More job training both in high school and after

More enlightened policing--less focus on picking up black males for loitering, THC, and other "garbage" charges

I don't know.

Improve access to high quality early learning programs for ALL children. Make it affordable and provide transportation if needed. Ensure access to mental health services for young children who need them.

Provide high quality pre-schools in more accessible locations or in a more affordable way. ☐

## ALACHUA COUNTY CHILDREN'S TECHNICAL APPENDIX

**TABLE 195 CONT. ACTUAL PROVIDER SURVEY QUESTION AND RESPONSES, ALACHUA COUNTY PROVIDERS OF SERVICES FOR CHILDREN BETWEEN 0-5 YEARS OF AGE, 2016.**

More awareness of school readiness programs, have them located in areas of need or high risk areas. Getting parents involved starts with getting parents the knowledge because most time they are unaware on how to prepare their kids.					
information to local assistance programs for back to school items. Allow parents and children to view school in a different spectrum and away from school grounds to assist in dispelling a parents personal agenda or biases based on past experiences as a youth. Improve a child's motivation to want to attend school and improve the parents confidence in the education their					
The main reason adults can't retain a job or start at one is due to having small children to care for and not being able to afford daycare. A program that can assist with child care as well as teach adults and coordinate with resumes and job seeking will be beneficial. More advertising regarding programs that are available for assistance to help low income households.					
State needs to increase funding for Medicaid, raise Medicaid fees, expand enrollment and reduce eligibility requirements, get rid of medical and dental HMOs and return to a fee for service system administered directly by the state.					
reduce costs of attending, costs of meals at school, more/better transportation					
Easier registration processMedia awarenessAssistance programs in areas with problems					
Mandatory daycare or pre-kFree health care for childrenFree parenting classes					
Create an integrated and coordinated referral to support systems with cross training of professionals					
Families need to be referred for services that will help them provide for their children.					
Schools should provide transportation.					
Help parents find care for the other children in the home.					
Educate the parent about preparing the child for school.					
Make sure EVERY child attends a high quality preschool program and assist financially.					
parent classes children attending early childhood centers					
Requiring parenting education in schoolsProviding home-visiting that is tied to reduced cost childcare					
Allow things to be completed via phone and call parents about the services.					
Encourage going to VPKHome visitsMake sure all providers prep children for kindergarten					
Staff training about the barriers the families face to applying for service, more outreach enrollment events.					
Educating the parents and early intervention programs					
Transportation should be available to free VPK services. Early learning programs should be free and easily available. more inhome programs to identify special needs.					
A					
Parenting Sessions with ParentsScreenings of children at an early ageParenting and Partnership with DCF and Workforce					
More quality childcare options available, Financial assistance for quality childcare					
Promotional materials for home visiting programs so parents can get educational guidance for their children through HV models					
Educate pediatricians on availability of and referral process to HV services in Alachua County.					
During pregnancy, all parents-to-be should meet with a counselor who can help them understand some basic ways to provide quality early learning experiences starting at birth in order to set their child on a path to success. All children two years of age and older should be enrolled or have access to high quality early learning experiences outside the home. Funding should be available to provide services to all children three years of age and older (age 4 is too late).					
Not sure					
Encourage parents to utilize the free VPK services. Encourage education of parents on how to help children be prepared for school.					
affordable access to daycare in or near their neighborhoods with routines and educational information that mirror what school will be like in the future					
I believe it should be mandatory for all daycares that take 5 year olds to offer VPK.					
Increase awareness of availability of local pre-school programs and increase awareness of the benefits of pre-school					
expand healthy kids and early learning like head start and VPK					
Provide developmental/educational tools to families of small children, rather than stuffed animal type toys or simple toys that children quickly tire of.

Prepared by WellFlorida Council, 2016.

## ALACHUA COUNTY CHILDREN'S TECHNICAL APPENDIX

**TABLE 195 CONT. ACTUAL PROVIDER SURVEY QUESTION AND RESPONSES, ALACHUA COUNTY PROVIDERS OF SERVICES FOR CHILDREN BETWEEN 0-5 YEARS OF AGE, 2016.**

Provide resources for low income families, have easier access to said resources, may be have more programs that can help these types of families.					
More programs to help children learn school age activities in their childhood development.					
Educate parents on the importance of education starting at age 3-4, education in hospitals on parenting					
Children need to know school is important and they can succeed.					
If possible free transportation services (schools have a pick up and drop off system) for those who qualify. Educating parents about the potential benefits of child care and kindergarten preparedness (and that this starts from birth not just when they are in VPK). Also educating parents on developmental milestones so that if a warning sign is there appropriate and immediate action is taken place to address versus waiting until child is in kindergarten.					
Unsure					
Expand head-start like programs and fund them more equitably Provide better early learning opportunities for those not eligible for HS					
assistance with transportation to appointments Incentives for participation Personnel to follow-up on progress					
Educate the general public on the benefits of Early Childhood Education. Playing is learning. Getting dirty is learning. Encourage children to learn things like independence, problem solving, and self confidence through play type activities. Without time spent exploring and discovering cause and effect on their own, children enter the world entitled, cautious and unwilling to participate in LIFE.					
Provision of Early Childhood Caries preventive services by medical personnel and dental personnel at office visits, WIC and HS programs. Bring services to the children Establishment of a dental home for all children by age 1 Parent education and more accountability for schools Parent education; media exposure Attend preschool! At least VPK.					
Broader funding for all children to attend high quality care settings. Awareness campaign on nurturing home care settings to promote positive learning outside the home. Funding to increase childcare worker pay.					
unknown					
Early screening and access to affordable child care especially for families that are able and willing to work or go to school.					
The answer is not an easy one. This problem can only be solved at the fundamental level with the parents and caregivers. As a community we can provide services but unless we have the buy-in from the populations that need it the most there will be no improvements.					
1. Provide funding/incentives for quality early childhood programs. 2. Increase the amount of money that is available for subsidizing child care, so that more families can use this service					
More information can be provided concerning the services that are available.					
Increase childcare assistance eligibility so that more parents have higher quality childcare services available. Make hospital staff shift hours an attractive option for childcare providers. Ergo, 7a-3p (6am-4pm childcare), 11pm-7am (10pm-8am childcare). outreach programs to the neighborhoods

### Technical Notes

#### 2010 U.S. CENSUS DATA

The 2010 U.S. Census data provides the official counts of the population and housing units for the nation, counties, cities and towns. In the past, short and long forms were sent out every ten years. Now, only the short forms are sent out every ten years. Information collected on the long forms in the past are now asked on the yearly American Community Surveys. 2010 Census data is shown for the population in various breakouts to show the official counts by Zip Code Tabulation Areas, county and state level.

#### AMERICAN COMMUNITY SURVEY DATA

The American Community Survey (ACS) data is released in one-year, or five-year estimates depending on what level of data is shown. Traditionally, short forms and long forms were sent out to addresses every 10 years. The American Community Survey was designed to replace the long form and it is now sent to only a sample of the population each year instead of every ten years, so that ongoing estimates may be available. The ACS reports contain estimates, not the official counts. The U.S. Census states that you should not compare 2010 Census numbers to ACS data; they also suggest that you only compare ACS data when the data are different sets of years. Therefore, to compare 2005-2009 ACS data you would not compare it with any other set until the 2010-2014 data is released. Three-year estimates have been released in the past but are no longer being released. Individual sets of years of data for the ACS may be compared to each other. Please remember that the ACS data are not the actual count but a sample of the population over the selected time period. For more detailed information on the American Community Survey, please refer to <https://www.census.gov/programs-surveys/acs/guidance/comparing-acs-data/2014.html>.

Since previous data that was collected on the old long forms were not collected during the 2010 official counts, there is no data from that point for education levels and income information in the 2010 counts. The income information and education data estimates are shown from the latest ACS. Various other data from the latest ACS are included in this report as well to show the latest estimates. To be able to compare Zip Code Tabulation Area level data, data from the five-year estimates has to be utilized.

#### COUNTY HEALTH RANKINGS

The County Health Rankings are a key component of the Mobilizing Action Toward Community Health (MATCH) collaboration project between the Robert Wood Johnson Foundation and the University of Wisconsin Population Health Institute. Counties receive a rank relative to the health of other counties in the state. Counties having high ranks, e.g. 1 or 2, are considered to be the “healthiest”. Health is viewed as a multifactorial construct. Counties are ranked relative to the health of other counties in the same state on the following summary measures:

- I. Health Outcomes--rankings are based on an equal weighting of one length of life (mortality) measure and four quality of life (morbidity) measures.
- II. Health Factors--rankings are based on weighted scores of four types of factors:
  - a. Health Behaviors (9 measures)
  - b. Clinical Care (7 measures)
  - c. Social and Economic (8 measures)

## ALACHUA COUNTY CHILDREN'S TECHNICAL APPENDIX

---

### d. Physical Environment (5 measures)

For more detailed information please check <http://www.countyhealthrankings.org/ranking-methods>.

### EARLY LEARNING COALITION OF ALACHUA COUNTY

The Early Learning Coalition of Alachua County is a school readiness program that uses an integrated service system linking decision makers, families, early childhood educators, and business leaders together to ensure that children from birth to five years old receive care and learning opportunities. Some of those opportunities include but are not limited to child care, early learning assistance, referrals, and Voluntary Pre-Kindergarten (VPK). . Please visit their website at [www.elcalachua.org](http://www.elcalachua.org).

### EDUCATION LEVELS AND LANGUAGE SPOKEN AT HOME

The number of persons by level of school completed is shown as well as the language spoken in the home and how well English is spoken.

### HEALTHY START OF NORTH CENTRAL FLORIDA SERVICES

Healthy Start provides support services to pregnant women, infants and children up to age three. The support services provided include information, referrals and ongoing care coordination, psychosocial, nutritional, and smoking cessation counseling, childbirth, breastfeeding and parenting support and education, and home visiting.

### HOUSEHOLD TYPES

There are various types of households. A household includes all of the people who occupy a housing unit. (People not living in households are classified as living in group quarters.) A housing unit is a house, an apartment, a mobile home, a group of rooms, or a single room occupied (or if vacant, intended for occupancy) as separate living quarters. Separate living quarters are those in which the occupants live separately from any other people in the building and that have a direct access from the outside of the building or through a common hall. The occupants may be a single family, one person living alone, two or more families living together, or any other group of related or unrelated people who share living quarters.

A family includes a householder and one or more other people living in the same household who are related to the householder by birth, marriage, or adoption. All people in a household who are related to the householder are regarded as members of his or her family. A family household may contain people not related to the householder, but those people are not included as part of the householders family in census tabulations. Thus, the number of family households is equal to the number of families, but family households may include more members than do families. A household can contain only one family for purposes of census tabulations. Not all households contain families since a household may be comprised of a group of unrelated people or of one person living alone. For more detailed explanation please see [http://www2.census.gov/programs-surveys/acs/tech\\_docs/subject\\_definitions/2014\\_ACSSubjectDefinitions.pdf](http://www2.census.gov/programs-surveys/acs/tech_docs/subject_definitions/2014_ACSSubjectDefinitions.pdf)

## ALACHUA COUNTY CHILDREN'S TECHNICAL APPENDIX

---

### INCOMES

Various income data is shown by zip codes and levels from the latest 5-year ACS estimates.

### MERIDIAN BEHAVIORAL HEALTHCARE

Meridian Behavioral Healthcare is a private non-profit organization that promotes health, recovery, and well-being of individuals affected by mental illness and substance use disorders. Meridian provides prevention, coordinated treatment, and supportive services. Some of those services include mental health first aid, residential and inpatient services, child and youth services, outpatient services, and corporate and professional development.

### PARTNERSHIP FOR STRONG FAMILIES (PSF)

Partnership for Strong Families (PSF) provides child welfare services in efforts to protect local children from abuse, neglect, and abandonment. PSF also assists in establishing safe and permanent homes with their own families, partner families, and adoptive parents. This is done through providing training programs, family and child counseling, and community resources (i.e., Library Partnership, SWAG Family Resource Center, Cone Park Library Resource Center, and Tri-County Community Resource Center).

### PEACEFUL PATHS

Peaceful Paths is a certified domestic abuse network that provides services to survivors of domestic violence in Alachua, Bradford, and Union counties. The services provided include emergency shelter, transitional housing, crisis hotline, victim advocacy, children's programming, education and training, counseling and support groups, community awareness and intervention, violence prevention programs, and batterer's intervention programming.

### POVERTY

The U.S. Census Bureau provides poverty estimates through the Small Area Income and Poverty Estimates (SAIPE). Data shown is for all ages in poverty as well as children under age 18. To compare poverty at the Zip Code level, the ACS estimates are shown for various age groups and various levels of poverty.

### READINESS RATES

For the timeline of how testing came about please visit:

<http://www.floridaearlylearning.com/sites/www/Uploads/files/VPK/OEL%20Florida%20Kindergarten%20Screening%20and%20Assessment%20History%20031516.pdf>

### SMALL AREA HEALTH INSURANCE ESTIMATES

In previous Small Area Health Insurance Estimate (SAHIE) releases, uninsured was defined from the Annual Social And Economic Supplement to the Current Population Survey (CPS ASEC) and the question was for being covered "Some Time During the Past Calendar Year". With the 2008 release from the Census, the CPS ASEC data were replaced with American Community Survey (ACS) data. the ACS health insurance question asks, "Is this person CURRENTLY covered by [specifically stated] health insurance or health coverage plans?"

## ALACHUA COUNTY CHILDREN'S TECHNICAL APPENDIX

---

In 2010, the age group 50-64 was added to the various age group breakouts in the SAHIE. the Census does not recommend comparing the 2008 and newer data to previous-year SAHIE estimates.

### THE DEPARTMENT OF CHILDREN AND FAMILIES

The Department of Children and Families provides a wide range of programs and services to assist individuals in becoming self-sufficient and live in stable families. Programs and services provided include but are not limited to ACCESS Florida, adult services, and child care.

### UNEMPLOYMENT

The latest unemployment monthly and yearly rates are shown for the county. This data is from the Florida Research and Economic Database.

### UNITED WAY OF NORTH CENTRAL FLORIDA (UWNCFL)

United Way of North Central Florida (UWNCFL) is a nonprofit corporation with a purpose to advance the common good by focusing on education, income, and health. Although, majority of their resources and efforts are geared towards education, UWNCFL leads the community to focus on education, income, and health through donations, advocating, and volunteering.

### VPK PROVIDER KINDERGARTEN READINESS

For information about the VPK provider kindergarten readiness rates please see:

<https://vpk.fldoe.org/infopages/parentinfo.aspx>

### ZCTAS AND ZIP CODES

The United States Census Bureau collects data by United States Postal Service (USPS) zip codes. Based on zip code data the Census Bureau then aggregates Zip Code Tabulation Area (ZCTAs) from addresses contained within each block. This allows the aggregated data to be converted into areal feature datasets (ZCTAs). for complete information, please see <http://www.census.gov/geo/reference/zctas.html>.

Below is a table that shows all zip codes in Alachua County along with the city name, percent of the zip code addresses in the county, whether or not the zip code is a post office box or a unique zip code and whether or not the post office box or unique zip code is included with another zip code's information. the ZCTA that the zip code is matched to is also listed. As you can see from the table most zip codes correspond to the same ZCTA number, the differences are post office or unique zip codes. Post office zip codes 32602 and 32627 both in Gainesville are included with 32601 Gainesville. Gainesville zip code 32604 is included with 32603 Gainesville. Zip codes 32610 and 32614 both Gainesville are included with 32608 Gainesville. 32611 Gainesville zip code is included with the 32612 zip code. Evinston's zip code 32633 is included with 32667 Micanopy. Zip code 32635 in Gainesville is included with 32605. Zip codes 32654 (Island Grove) and 32662 (Lochloosa) are both included with the 32640 Hawthorne zip code. the Post Office Zip code 32655 (High Springs) is included with 32643 High Springs. There are three other zip codes from surrounding counties that cross into Alachua County but are not shown because of the small percentage of addresses considered to be Alachua County. They are 32044 Hampton (Bradford County) which has approximately 4.7 percent of

## ALACHUA COUNTY CHILDREN'S TECHNICAL APPENDIX

their zip code addresses in Alachua County. Brooker (Bradford County) zip code 32622 has approximately 18.3 percent of their zip code addresses in Alachua County. 32666 Melrose (Putnam County) zip code has approximately 20 percent of their zip code addresses in Alachua County. Since zip codes can cross lines the tables include a Alachua County number as well as a total for the zip codes listed in the table.

Zip Code	City Name	Percent of Zip Code Addresses in County	Post Office or Unique	Post Office Box or unique included with other Zip Listed	ZCTA
32601	Gainesville	100			32601
32602	Gainesville	100	Yes	32601	32601
32603	Gainesville	100			32603
32604	Gainesville	100	Yes	32603	32603
32605	Gainesville	100			32605
32606	Gainesville	100			32606
32607	Gainesville	100			32607
32608	Gainesville	100			32608
32609	Gainesville	100			32609
32610	Gainesville	100	Unique	32608	32608
32611	Gainesville	100	Unique	32612	32612
32612	Gainesville	100	Unique		32612
32614	Gainesville	100	Yes	32608	32608
32615	Alachua	100			32615
32616	Alachua	100	Yes		32616
32618	Archer	76.2			32618
32627	Gainesville	100	Yes	32601	32601
32631	Earleton	100			32631
32633	Evinston	100	Yes	32667	32667
32635	Gainesville	100	Yes	32605	32605
32640	Hawthorne	64.1			32640
32641	Gainesville	100			32641
32643	High Springs	70.4			32643
32653	Gainesville	100			32653
32654	Island Grove	100	Yes	32640	32640
32655	High Springs	100	Yes	32643	32643
32658	LaCrosse	100	Yes		32658
32662	Lochloosa	100	Yes	32640	32640
32667	Micanopy	61.1			32667
32669	Newberry	86.5			32669
32694	Waldo	98.2			32694

Note: 32044 Hampton(Bradford County) has approximately 4.7 percent of that zip code in Alachua County, 32622 Brooker (Bradford County) has approximately 18.3 percent of their zip codes in Alachua County and 32666 Melrose(Putnam County) has approximately 20 percent of their zip codes in Alachua County as well. The last two columns are based on the UDS Mapper Zip Code to ZCTA Crossover, 2015.

Mona Gil de Gibaja	WellFlorida Council

\*Appointed to the Children's Services Advisory Board and resigned from steering committee

\*\*Retired/Resigned from Agency prior to completion of needs assessment

### Key Informant Interview Script and Questions

Hello and thank you for agreeing to be a key informant. Recently, the Board of County Commissioners in Alachua demonstrated their commitment to the children and families of Alachua County by forming the Children's Service Advisory Board (CSAB). The CSAB will be dedicated to making the needs of children, prenatal to 5 years of age, a priority for local government and the community. This key informant interview is intended to fuel discussion, as we try understanding what services or programs are essential in order for Alachua County children to reach their fullest potential; academically, physically, socially, etc.

My name is Lindsey Redding and I am the director of Community Initiatives at WellFlorida. WellFlorida Council is the state designated local health council for North Central Florida. I have prepared several questions that we hope will allow us to have a meaningful discussion. I want to hear your opinions. There are no right or wrong answers. I will be taking notes based on today's conversation.

An audio recorder will be used to ensure what is written in the final report accurately reflects what was discussed during the key informant interviews. Once the final report is complete, the audio recordings will be destroyed. The written report will include aggregate data and while quotes and themes will be included in the final report, the author of these themes and quotes will not be identified. A list of key informants will be provided in the final report, however, their comments will be included on an aggregate level and not directly attributed to a specific key informant.

Are there any questions about the key informant interview or what we are going to do today?

Thank you, at this time, I am turning on the voice recorder.

## ALACHUA COUNTY CHILDREN'S TECHNICAL APPENDIX

---

1. What do you see as the major problems of infants, preschool children, and young families in Alachua County?
2. What factors in Alachua County contribute these problems?
3. What services should be available and accessible to support young families so they can avoid or successfully address these problems? (dependent on the above)
4. What resources (financial, human, informational, political, etc.) are required to address these deficiencies?
5. Is Alachua County in a position to provide those resources and/or to leverage existing county resources with other entities to address the deficiencies?
6. How can your agency/organization contribute to this effort?
7. What do you see as the role of the Children's Services Advisory Board in addressing the problems/needs you mentioned?
8. The BOCC in Alachua is currently considering allocating \$1.2 million in funding for children 5 and younger. If that funding allocation comes to fruition, what do you believe are the primary issues that should be addressed through that funding?

### Focus Group Script and Questions

#### PROVIDER

Hello and welcome to our focus group. Recently, the Board of County Commissioners in Alachua demonstrated their commitment to the children and families of Alachua County by forming the Children’s Service Advisory Board (CSAB). The CSAB will be dedicated to making the needs of children, prenatal to 5 years of age, a priority for local government and the community. This focus group is intended to fuel discussion, as we try understanding what services or programs are essential in order for your child to reach his/her fullest potential; academically, physically, socially, etc.

My name is \_\_\_\_\_ and I am an Associate Planner at WellFlorida Council and this (indicate other staff member) is \_\_\_\_\_ another Associate Planner at WellFlorida Council. WellFlorida Council is the state designated local health council for North Central Florida. We have prepared several questions that we hope will allow us to have a meaningful discussion. We are not trying to change your mind or convince you of anything. We just want to hear your opinions. Everyone’s opinion is valuable, so everyone will have an opportunity to speak. Each of you have different experiences that can mold our discussion. Feel free to express your opinion(s) even if it is opposite from the person beside you. There are no right or wrong answers. We will be taking notes based on today’s conversation.

Before we get started today, we have a few group rules. The first rule is that everything you say will remain anonymous. We will not include your name in the written report. You may notice the voice recorder—this recorder will begin recording after everyone has signed the informed consent paperwork. This voice recorder is used to make sure that what we write in the final report reflects our conversation. The recording will be erased once the report is written. As a second group rule, we want everyone to feel comfortable sharing their personal experiences. So,

## ALACHUA COUNTY CHILDREN'S TECHNICAL APPENDIX

---

please do not repeat personal stories people share during this discussion outside this group. It is important that we trust each other because we want you to feel comfortable talking. Lastly, and most importantly, please allow one person to speak at a time. We don't want to miss anything anyone says, so it is important to not talk over one another or break into separate conversations.

Are there any questions about the focus group or what we are going to do today?

Thank you, at this time, we are turning on the voice recorder.

To help us know you a little better, please tell us....

1. What organization do you work for; what services are provided at your organization; and what is your role?
2. What challenges do you face in delivering services?
3. What does school readiness mean to you?
4. Why do you believe some children are not prepared to start school?
5. What can be done to help children be better prepared to start school?
6. In our survey of parents and guardians with children 5 and younger, lack of knowledge about available services was identified as a barrier. Why do you think that is?
7. What are some ways we can better promote services to prevent lack of knowledge from being a barrier for Alachua County parents/guardians?

### PARENT AND GUARDIAN

Hello and welcome to our focus group. Recently, the Board of County Commissioners in Alachua demonstrated their commitment to the children and families of Alachua County by forming the Children's Service Advisory Board (CSAB). The CSAB will be dedicated to making the needs of children, prenatal to 5 years of age, a priority for local government and the community. This focus group is intended to fuel discussion, as we try understanding what services or programs are essential in order for your child to reach his/her fullest potential; academically, physically, socially, etc.

My name is \_\_\_\_\_ and I am an Associate Planner at WellFlorida Council and this (indicate other staff member) is \_\_\_\_\_ another Associate Planner at WellFlorida Council. WellFlorida Council is the state designated local health council for North Central Florida. We have prepared several questions that we hope will allow us to have a meaningful discussion. We are not trying to change your mind or convince you of anything. We just want to hear your opinions. Everyone's opinion is valuable, so everyone will have an opportunity to speak. Each of you have different experiences that can mold our discussion. Feel free to express your opinion(s) even if it is opposite from the person beside you. There are no right or wrong answers. We will be taking notes based on today's conversation.

Before we get started today, we have a few group rules. The first rule is that everything you say will remain anonymous. We will not include your name in the written report. You may notice the voice recorder—this recorder will begin recording after everyone has signed the informed consent paperwork. This voice recorder is used to make sure that what we write in the final report reflects our conversation. The recording will be erased once the report is written. As a second group rule, we want everyone to feel comfortable sharing their personal experiences. So,

## ALACHUA COUNTY CHILDREN'S TECHNICAL APPENDIX

---

please do not repeat personal stories people share during this discussion outside this group. It is important that we trust each other because we want you to feel comfortable talking. Lastly, and most importantly, please allow one person to speak at a time. We don't want to miss anything anyone says, so it is important to not talk over one another or break into separate conversations.

Are there any questions about the focus group or what we are going to do today?

Thank you, at this time, we are turning on the voice recorder.

In front of you is a list of services commonly used by families with children five and younger. Please keep these services in mind as we discuss your experiences today. Can you think of any services we didn't include on the sheet?

Please tell us a little about yourself:

1. How many children under 6 do you have?
2. What services have you used for your children under 6?

There is a lot of attention these days to the concept of 'school readiness.'

3. What does school readiness mean to you?
4. What are you doing to help your infant/child be ready for school? If your child is already in school, what did you do to help prepare him/her to be ready for school?

In our survey of parents/guardians of infants with young children in Alachua County, four barriers to receiving services were identified repeatedly. In order to provide solutions to these barriers, we need to understand more about how they affect different families. The four barriers most often identified in the survey were: Financial barriers, transportation to services/location of services, service hours, and knowledge gaps about services.

5. Tell us about a time when you experienced financial barriers to getting the services you needed for your child or infant. These services can be health related, education related, child care related, social service related etc. Were you able to get your child/infant the service they needed?
6. Tell us about a time when you experienced transportation barriers to getting the services you needed for your child or infant. These services can be health related, education related, child care related, social service related etc. Were you able to get your child/infant the service they needed?

## ALACHUA COUNTY CHILDREN'S TECHNICAL APPENDIX

---

7. Tell us about a time when you experienced service hour barriers to getting the services you needed for your child or infant. These services can be health related, education related, child care related, social service related etc. Were you able to get your child/infant the service they needed?
8. Parent/guardian survey participants identified the lack of knowledge about available services as a barrier. What can we do better to inform parents/guardians about available services? How do you currently get your information about available services? How would you like to get this information?

## Parent Statement of Informed Consent

### Statement of Informed Consent

I, \_\_\_\_\_, agree to participate in this focus group being conducted by WellFlorida Council regarding The Alachua County Children's Services Needs Assessment.

I understand that this focus group interview will last no more than 2 hours and will be audio taped.

I understand that my participation in this focus group is entirely voluntary, and that if I wish to withdraw from the focus group or to leave, I may do so at any time, and that I do not need to give any reasons or explanations for doing so. If I do wish to withdraw from the focus group, I understand that this will have no effect on my relationship with the WellFlorida Council or any other organization or agency. I also understand that if I do withdraw from the study, the \$20 cash incentive for my participation will be forfeited.

I understand that to prevent violations of my own or other's privacy, I have been asked not to talk about any of my own or other's private experiences that may be too personal to share in a group setting. I also understand that I have an obligation to respect the privacy of other members of the group. Therefore, I will not discuss any personal information that is shared during this focus group outside of this group.

I understand that all the information I give will be kept confidential, and that the names of all people in the focus group will be kept confidential. The recording of this focus group will only be heard by approved WellFlorida staff and will be destroyed upon completion of the final report.

I understand that I may not receive any direct benefit from participating in this study, but that my participation may help others in the future.

The facilitators of the focus group have offered to answer any questions I may have about the study and what I am expected to do.

I have read and understand this information, and I agree to take part in the focus group.

## Forces of Change – Threats and Opportunities Worksheet

### Forces of Change - Threats and Opportunities Worksheet

For each of the Forces of Change you identified in the Forces of Change Brainstorming Worksheet, identify up to two (2) potential threats posed and/or two (2) potential opportunities created for the children's services system or children's outcomes. Forces can bring both threats and opportunities and it is critical to understand both possibilities for sound children's services improvement planning. Continue onto another page if needed. If you have any questions, please do not hesitate to contact Lindsey Redding at [lredding@wellflorida.org](mailto:lredding@wellflorida.org). (An example is provided in italics below.)

Factors, events and trends affecting Alachua County Children's Services:

Forces (Trend, Events, Factors)	Threats Posed	Opportunities Created
1. <i>Trend – Increase in development on Archer Rd and East Gainesville Revitalization</i>	<i>Increased demand on RTS; addition of lower-wage employment opportunities</i>	<i>Opportunity for increased County revenue due to increase in businesses on Archer Rd.; added employment opportunities</i>
2.
